Follow steps 1 and 2 below to document a medical exemption, non-medical exemption, or history of chickenpox.

1. Place an X in the box to indicate a medical or non-medical exemption. If you are exempting your child from more than one vaccine, mark each vaccine you are exempting them from with an X.
2. Obtain signatures for exemptions or history of chickenpox disease.

Medical exemption: A health care provider must review and sign a medical exemption. A health care provider includes a licensed physician, nurse practitioner, or physician assistant. By my signature below, I confirm that this child should not receive the vaccines marked with an X in the table for medical reasons (contraindications) or because there is laboratory confirmation that they are already immune.

Non-medical exemption: A parent/guardian must sign for a non-medical exemption and the form must be signed and stamped by a notary. A child is not required to have an immunization that is against their parent or guardian's beliefs. Choosing not to vaccinate may put the health of your child or others they are around at risk. Unvaccinated children who are exposed to a vaccine preventable disease may be required to stay home from school and other activities for up to 21 days to protect themselves and others.

By my signature I confirm that this child will not receive the vaccines marked with an X in the table because of my beliefs and I understand that they may be required to remain out of school and other activities for up to 21 days if exposed to a vaccine preventable disease.
